

We have a dual Biomass Boiler System that is available due to the business being sold to another company that does not need the Boiler System.

This system includes the following:

2 - 125 BHP Chain Grate High Pressure Steam Biomass Boilers

(Can be converted to Hot Water)

2 - Control Panels

2 - 40 Ft. Stacks

2 - ID Fans

2 - Cyclones

2 - Automatic Ash Cleaning Systems

1 - Traversing Auger Fuel Storage System

1 - Control Panel

1 - Air Compressor

All Conveyors

Fuel Transfer Bin to feed both boilers

Electrics were updated 2 years ago

Fuel Storage System installed 2 years ago and used one day

Chain Grates were replaced several years ago

System is represented to be in very good condition

NOTE: If desired - we can supply Turbine Generator, delivered and installed for additional power if needed.

CUSTOMER PURCHASE OF EQUIPMENT ONLY:

The Boiler System as described above is available for purchase with the buyer responsible for all costs as follows:

- Removal;
 - Crane, Labor & Freight
- Installation;
 - Crane, Electrician, Mechanical, Concrete, Building, Permits, Startup, Commission

NOTE:

Buyer will be responsible for all costs and permits, concrete, building, electric to building, water to building

- **Subject to customer request:**
 - **We will issue a complete proposal detailing the system in "as-is" condition**

(We would be glad to assist in arranging trucking and crane for disassembly at customer cost, if needed)

REC OFFERS REMOVAL OF COMPLETE SYSTEM FROM PRESENT FACILITY, DELIVERED, INSTALLED AND COMMISSIONED:

NOTE:

- **Buyer will be responsible for permits, concrete, building, electric to building, water to building**
- **Subject to customer request:**
 - **We will issue a complete proposal detailing our procedure and pricing to deliver, install and commission**

SUBJECT TO YOUR REQUEST, WE WOULD BE GLAD TO SEND ADDITIONAL INFORMATION AND PICTURES.

I look forward to hearing from you concerning your positive interest.

Thank you, Bob Rice
